Mr Khan Bahadur Ali Khan has spoken to me more than once on the subject - what the precise reforms are to which he refers in his Memorial to His Highness the Maharaja I do not know - His case is one the merits of which I have never worked out - His Company owns (the Executor of the Will he owns) is in a dilapidated condition and as noticed by me during my recent inspection, is quite unfit for occupation -

Neither the land nor the Bungalow can be regarded as an endowment-worth accepting - I advised Mr Hamaluddin Allibhai to sell both these properties and offer the sale proceeds to Govt as an endowment He is no doubt actuated by the best of intentions but he is unable to make any offer worth the acceptance of Govt - A piece of land which yields next to nothing and a building which by reason of its neglected condition can fetch no rent ought not in my humble opinion be accepted as an endowment I beg to submit that a report to H H the Maharaja be submitted accordingly

I agree, but I should word the reply somewhat differently. I would say that Govt, while recognising Mr Ali's charitable intentions, regret their inability to accept the trust of property in the form proposed. If he still so desires the properties may be sold &c &c -

SIR

With reference to your docket No 13162/30-311 dated 27th February 1903 forwarding for report Petition No 1985 dated 17th December 1902 addressed to H H the Maharaja of Mysore by Mr Mir Kamaluddin Ali Khan, I have the honour to inform you that the Amildar of Seringapatam informs me that Survey Nos 154, and 156 in Chandgal Hobli comprising 2 acres and 4 guntas to which the petitioner refers are situated five furlongs to the South of the village of Chandagal, and are not liked by the ryots as good lands for cultivation. Last year the owner's share of produce from these lands was four candies of Paddy. This year the lands have remained uncultivated. The market value of the lands is Rs 200 only From

the value of the 4 candies of paddy if the Kandayam of Rs 17-12-9 is deducted, there will be a net income of "Re 1 to Rs 3" a year to the owner. From this infinitesimal amount no public charity can be maintained.

2 With reference to the house in Trumkur which Mr Mir Kamaluddin Ali Khan offers in charity I beg to inform you that he offered to make over the same house to the Education Department in his letter dated 29th June 1902 for the purpose of founding scholarships for poor Muhammadan students from its rent On receipt of the application I asked the Executive Engineer, Trumkur, to be good enough to report on the stability and value of the house A copy of his reply No 505 dated 22nd July 1902 I enclose herewith It will be seen from it that the house is very badly built and will have to be rebuilt from the foundations to serve any permanent purpose. The House with its compound is valued by the Executive Engineer at Rs 400 at the utmost Under these circumstances I informed Mr Mir Kamaluddin Ali Khan in my letter No 1122/227 dated 30th July 1902 of my inability to recommend to Government that the house might be taken over and rebuilt by Government for the charitable purposes mentioned by him.

I have the honour to be,
Sir,

Sir,

With reference to your docket No 78/2 dated 3rd July 1902 about the house set apart for charitable purposes by the late Mr Kamaluddin Ali Khan at Trincomalee, I have the honour to enclose a tracing plan of the house in question with the grounds attached to it

It is built of burnt brick in clay and roofed with cassanna poles and country pot tiles The door and window shutters are of mangoe wood and dealwood also is used in cases and the frames are made with jungle wood During late heavy winds the out houses were blown over and the tiles of the main building also were mostly displaced and the building is badly leaky The first floor is made up with any wood and planks obtained and dobbed over with mud The ground floor also is of mud and practically speaking has no basement The building is unsafe for occupation in its present condition and cannot be put to any use unless it is thoroughly overhauled and in part so rebuilt The-

materials of the building when sold might fetch about Rs 100, but the site (106' x 65') is valuable as it is enclosed by a wall of burnt brick and mud which might have cost about Rs 200 and the ground itself may be valued at Rs 50

The whole property as it now stands, when sold may not fetch more than Rs 350 to 400 the utmost

I have &c
